# **ASTHMA** QUALITY AREA 2 | ELAA VERSION 1.1

Summerhill Findergarten Childra - the kert of our remeating

- providing a clear set of guidelines and procedures to be followed with regard to the management of asthma
- educating and raising awareness about asthma among educators, staff, parents/guardians and any other person(s) dealing with children enrolled at the service.

#### Scope

This policy applies to the approved provider, persons with management or control, nominated supervisor, persons in day-to-day charge, early childhood teachers, educators, staff, students, volunteers, parents/guardians, children, and others attending the programs and activities of Summerhill Park Kindergarten, including during offsite excursions and activities.

Asthma management should be viewed as a shared responsibility. While Summerhill Park Kindergarten recognises its duty of care towards children with asthma during their time at the service, the responsibility for ongoing asthma management rests with the child's family and medical practitioner

all excursions and other offsite activities (refer to Excursions and	R	R	$\checkmark$	
Service Events Policy)				

#### **PROCEDURES**

Asthma Australia's Asthma First Aid 2022: <u>https://asthma.org.au/wp-content/uploads/2021/12/AAFA-First-Aid-2022-A4\_CMYK\_v7\_Blue-1.pdf</u>

## **BACKGROUND AND LEGISLATION**

## BACKGROUND

Asthma is a chronic, treatable health condition that affects approximately one in nine Australian children and is one of the most common reasons for childhood admission to hospital. With good asthma management, people with asthma need not restrict their daily activities. Community education assists in generating a better understanding of asthma within the community and minimising its impact.

Symptoms of asthma include wheezing, coughing (particularly at night), chest tightness, difficulty in breathing and shortness of breath, and symptoms may vary between children. It is generally accepted that children under six years of age do not have the skills and ability to recognise and manage their own asthma without adult assistance. With this in mind, a service must recognise the need to

educate staff and parents/guardians about asthma and promote responsible asthma management strategies.

Legislation that governs the operation of approved children's services is based on the health, safety and welfare of children, and requires that children are protected from hazards and harm. The approved provider will ensure that there is at least one educator on duty at all times who has current approved emergency asthma management training in accordance with the *Education and Care Services National Regulations 2011 (Regulation 136(c))*. As a demonstration of duty of care and best practice, ELAA recommends all educators have current approved emergency asthma management training *(refer to Definitions)*.

#### LEGISLATION AND STANDARDS

Relevant legislation and standards include but are not limited to:

- Education and Care Services National Law Act 2010
- Education and Care Services National Regulations 2011
- Health Records Act 2001 (Vic)
- National Quality Standard, Quality Area 2: Children's Health and Safety
- Privacy Act 1988 (Cth)
- Privacy and Data Protection Act 2014 (Vic)
- Public Health and Wellbeing Act 2008 (Vic)
- Public Health and Wellbeing Regulations 2009 (Vic)

The most current amendments to listed legislation can be found at:

Victorian Legislation – Victorian Law Today: <u>www.legislation.vic.gov.au</u> Commonwealth Legislation – Federal Register of Legislation: <u>www.legislation.gov.au</u>

(i)

## DEFINITIONS

The terms defined in this section relate specifically to this policy. For regularly used terms e.g. Approved provider, Nominated supervisor, Notifiable complaints, Serious incidents, Duty of care, etc. refer to the Definitions file of the PolicyWorks catalogue.

**Approved Emergency Asthma Management (EAM) training:** Training that is approved by the National Authority in accordance with Division 7 of the National Regulations and is listed on the ACECQA website: <a href="http://www.acecqa.gov.au">http://www.acecqa.gov.au</a>. EAM training provides knowledge about the underlying causes of asthma, asthma triggers, and the recognition and treatment of an asthma attack.

**Asthma Care Plan:** A record of information on an individual child's asthma and its management, including contact details, what to do when the child's asthma worsens and the treatment to be administered in an emergency. An Asthma Care Plan template specifically for use in children's services can be downloaded from Asthma Australia's website: <a href="http://www.asthma.org.au">www.asthma.org.au</a> (refer to Attachment 2)

Asthma emergency: The onset of unstable or deteriorating asthma symptoms requiring immediate treatment with reliever medication.

Asthma first aid kit: Kits should contain:

- reliever medication
- 2 small volume spacer devices
- 2 compatible children's face masks (for children under the age of four)
- record form
- asthma first aid instruction card.

The Asthma Australia recommends that spacers and face masks are for single use only. It is essential to have at least two spacers and two face masks in each first aid kit, and these should be replaced once used. These used items can be provided to the child/family as a means of suitability.

**Asthma triggers:** Things that may induce asthma symptoms, for example, pollens, colds/viruses, dust mites, smoke and exercise. Asthma triggers will vary from child to child.

Metered dose inhaler (puffer): A common device used to administer reliever medication.

Puffer: The common name for a metered dose inhaler.

**Reliever medication:** This comes in a blue/grey metered dose inhaler containing salbutamol, an ingredient used to relax the muscles around the airways to relieve asthma symptoms. This medication is always used in an asthma emergency. Reliever medication is commonly sold by pharmacies as Airomir, Asmol, Ventolin or Zempreon.

**Risk minimisation plan:** Provides information about child-specific asthma triggers and strategies to avoid these in the service (*refer to Attachment 3*).

**Spacer:** A plastic chamber device used to increase the efficiency of delivery of reliever medication from a puffer. It should always be used in conjunction with a puffer device and may be used in conjunction with a face mask.

#### **EVALUATION**

In order to assess whether the values and purposes of the policy have been achieved, the approved provider will:

- regularly seek feedback from everyone affected by the policy regarding its effectiveness
- monitor the implementation, compliance, complaints and incidents in relation to this policy
- keep the policy up to date with current legislation, research, policy and best practice
- revise the policy and procedures as part of the service's policy review cycle, or as required
- notifying all stakeholders affected by this policy at least 14 days before making any significant changes to this policy or its procedures, unless a lesser period is necessary due to risk (*Regulation 172 (2)*).

# **ATTACHMENT 3: ASTHMA RISK MINIMISATION PLAN**

# Individual Asthma Risk Minimisation Plan

This plan is to be completed by the principal or nominee on the basis of information from the student's medical practitioner (Asthma Action Plan/Asthma Care Plan) provided by the parent.

It is the parents' responsibility to provide the school with a copy of the student's Asthma Action Plan/Asthma Care Plan containing the emergency procedures plan and current photo of the student - to be appended to this plan; and to inform the school if their child's medical condition changes.

# Individual Asthma Risk Minimisation Plan

This Individual Asthma Risk Minimisation Plan will be reviewed on any of the following occurrences (whichever happen earlier):

- annually
- if the student's medical condition, insofar as it relates to asthma management, changes
- as soon as practicable after the student experiences a severe/life-threatening asthma attack at school
- when the student is to participate in an off-site activity, such as camp or excursion, or at special events, conducted, organised or attended by the school (eg. class parties, elective subjects, cultural days, fetes, incursions).

I have been consulted in the development of this Individual Asthma Risk Minimisation Plan.

I consent to the risk minimisation strategies proposed herein.
